Are you ready for Dayskipper?

You will need sailing experience equivalent to the Competent Crew course, either completed a Day Skipper theory course or understand how to complete an EP, CTS and understand tidal height/rates calculations and basic rules of road and day/night shapes.

Starters Shorebased

Day Skipper Theory

Learn to navigate the traditional way as well as using modern navigation aids like the GPS. The course is run over five days, which can be taken over 3 weekends so you can spread it over the winter at your leisure, or on five consecutive days. (5 day course)

A 5-day course that can be booked as 5 straight days or divided into parts.

All 5 days

Please call or see web site

 18/4/2009 10:00 - 17:00

Coastal Skipper / Yachtmaster Theory

Essential for those wanting to venture further into new cruising areas, with longer passages and channel crossings. Lots to study here so we provide a pack to gain some practice at home.

A 6-day course that is divided into 3 parts.

28/2/2009 - 1/3/2009 10:00 - 17:00
 28/3/2009 - 29/3/2009 10:00 - 17:00
 2/5/2009 - 3/3/2009 10:00 - 17:00

Main Course Practical

Competent Crew

New to yachts? Get on board here and learn all the basic skills that will give you the confidence and experience to crew on any yacht.

Day Skipper

Lots of close quarter handling skills; mooring in a range of marinas and smaller ports offering more interesting ways to tie up for the night. You get plenty of experience through planning and completing passages, including a night sail.

Competent Crew or Day Skipper Coastal Skipper

A 5-day course that can be booked as 5 straight days or divided into two parts.

We aim to put some miles on the clock with longer passages, planning and executing coastal and offshore passages, day and night.

A 5-day course that can be booked as 5 straight days or divided into parts.

VHF GMDSS Course

A one day course run each month, including a simple exam at the end, will then give you the essential VHF operators licence, which someone onboard must have to enable the legal use of your VHF radio. As one of the most important safety features on any boat it is well worth learning its proper use and understanding. Try and learn your phonetic alphabet beforehand. (1 day course)

19/10/2008	10:00 - 18:00
16/11/2008	10:00 - 18:00
22/2/2009	10:00 - 18:00
22/3/2009	10:00 - 18:00

Need help / advice call 01273 42 48 42

Diesel Engine Maintenance

Mechanical failure is the main cause of lifeboat callouts. Basic maintenance and engine care may ensure you are not part of these statistics. This one-day course provides an awareness of the main systems of a marine diesel engine. It gives you the ability to take simple measures to prevent mechanical breakdown at sea and rectify defects which do not require workshop support. (1 day course)

29/3/2009	10:00 - 18:00
